

# INSTALLATION INSTRUCTIONS

## ICE COOLED DISPENSER

### FOR ONE PIECE 23" PLUG-IN DRIP TRAY

#### 1. INSTALLATION INSTRUCTIONS

##### 1.1 STEP ONE

Remove existing drip tray (PN 51-5075).

##### 1.2 STEP TWO

Install drain tubing adapter (PN 08-0083; 2 1/4" supplied, trim as necessary) to existing plastic (PVC) drain tube protruding from cabinet.

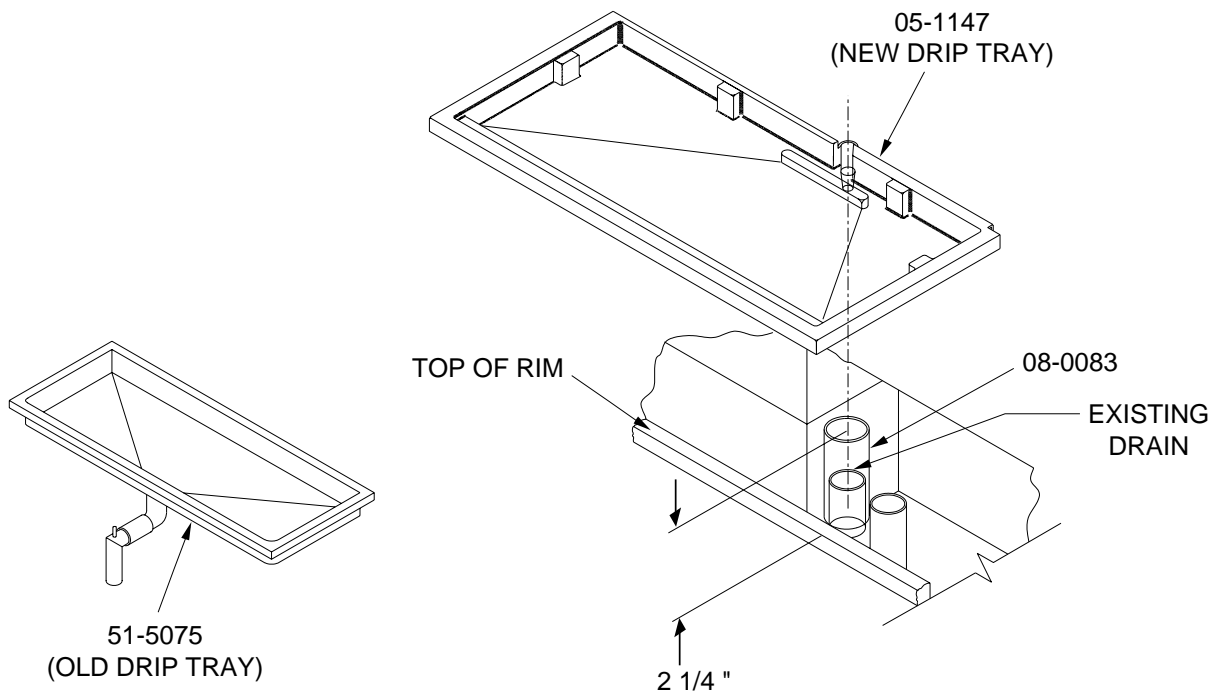

#### NOTES

Lubricating the inside of the drain tubing adapter (PN 08-0083) with soap water will make it easier to slip into place.

Total height from top of new drain tubing adapter to top of rim is 2 1/4 inches (see illustration).

##### 1.3 STEP THREE

Place new drip tray (PN 05-1147, supplied) into position. When installing new drip tray, use caution to insure drain from the new drip tray is properly inserted into the newly installed drain tubing adapter.
