# New Plumbing Assembly for the Bridge Tower

Technical Bulletin Reference No. 2304-001

Lancer has developed a new plumbing assembly for the Bridge Tower unit to increase carbonation on some units that exhibit low carbonation. The new plumbing assembly is easy to install on-site, simply remove the existing plain and carbonated water plumbing assembly from the nozzle and water valves then install the new and improved plumbing assembly in its place. For more information on installation instructions (Lancer PN: 28-0965) visit [lancercorp.com](http://lancercorp.com), scan the quick response (QR) code below, or contact your Lancer Customer Service representative. The new assembly will increase the carbonation levels and overall drink quality of your Lancer Bridge Tower. Contact your Lancer Customer Service Representative for more information on the new Lancer Bridge Tower Plumbing Assembly.

***Remove Existing Plumbing Assembly***

(Lancer PN: 49-0351)***

If a complete Operations Manual is required, please refer to the Lancer web site ([lancercorp.com](http://lancercorp.com)) or for your convenience, scan this QR code with a mobile device (app required) for immediate access. Contact Lancer Customer Service if any assistance is required.

## New 60 Inch LED Merchandiser Display

Technical Bulletin Reference No. 2304-002

Lancer has developed a new and improved LED Merchandiser Assembly for our 60 inch beverage dispensers. The new and improved frame design provides a more safe and secure method of installation and works for both the Flavor Select and IBD 4500 units. The large 60 inch by 34 inch display is the largest merchandiser for both the FlavorSelect and IBD units and utilizes a cleaner, safer, and more energy efficient option than any fluorescent bulb display. For more information on the new LED Merchandiser Assembly or installation instructions (Lancer PN: 28-0967) visit [lancercorp.com](http://lancercorp.com) or contact your Lancer Customer Service Representative

# Ordering the New Ice Maker Adapter Plates

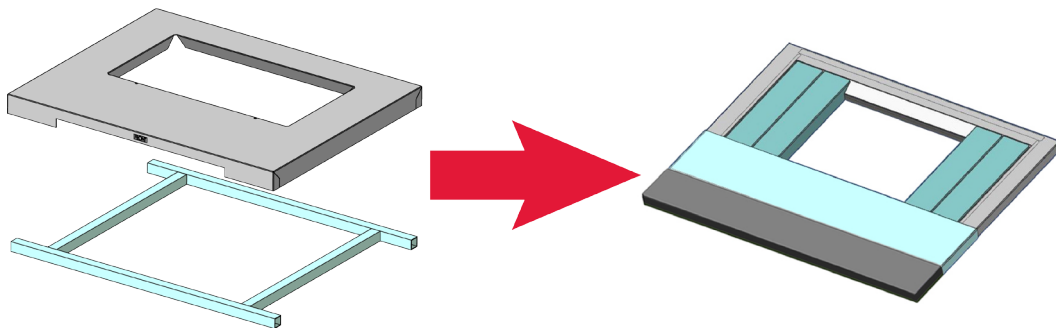

Technical Bulletin Reference No. 2304-003

Back in February, Lancer published an article entitled, "New Universal Ice Maker Adapter Plates" (Reference No.: 2302-003) addressing the 3 new ice maker adapter assemblies and their corresponding filler plates that can accommodate to most of the ice makers in today's market. These new and improved adapter assemblies will replace any existing ice maker adapters in our system, however the part numbers for those existing adapters will not change.

A customer will order the same part numbers from our system but instead of receiving the outdated, single piece ice maker adapters, they will receive an adapter base frame and specific set of filler plates that will fit that adapters' unique specifications.

Lancer Part Number: **82-4061**

Description: 30 inch, Mercury Ice Maker Adapter Kit

<i><b>Part Number</b></i>	<i><b>Description</b></i>
30-4063	Adapter Cover
51-1545	Adapter Frame

<i><b>Part Number</b></i>	<i><b>Description</b></i>
82-4932	30" ACIB Ice Maker Adapter Kit
30-12240 (x4)	Ice Maker Adapter Spacer
30-12247	Ice Maker Adapter Plate
30-12280	Ice Maker Adapter Cover Plate

For more information on ordering these new ice maker adapter assemblies visit [lancercorp.com](http://lancercorp.com) or contact your Lancer Customer Service Representative.
