# Bridge Tower Compact Nozzle Assembly Retrofit Kit

Technical Bulletin Reference No. 2403-001

Lancer is proud to introduce the new Compact Nozzle Assembly for the Coca-Cola Bridge Tower. The new condensed nozzle line assembly provides an improved flow stream for the lower flow rate brand applications and can easily replace any existing nozzle assembly on any unit in the field.

## 82-5250 - KIT,RETROFIT,COMPACT NOZZLE

***Flex Nozzle Assembly***

***New Compact Nozzle Assembly***

***Includes New Cleaning Nozzle***

Replace the outer nozzle with the new Cleaning Nozzle when cleaning and sanitizing the Bridge Tower. This cleaning nozzle eliminates the need of a wire brush to adequately clean and sanitize the nozzle dispense points.

***Compact Nozzle Line Configuration***

*Outer Ring  
(Brand Syrups)*

*Inner Ring  
(Bonus Flavors)*

*Center Line  
(Water/Soda)*

For more information on the new Bridge Tower Compact Nozzle Assembly kits, contact Lancer Customer Service at (800) 729-1500 or email us at [custserv@lancercorp.com](mailto:custserv@lancercorp.com).

## New Blue Soda/Water Push Button Kits for VersaPour Valves

Technical Bulletin Reference No. 2403-002

Lancer has developed a brand new blue water button for the VersaPour valve front Soda/Water Button Kits. The new push button design is easier to service, has a more intuitive activation, and is more durable than the older lever-actuation design. The blue Soda/Water Button Kits will only be compatible with the VersaPour valve models.

**82-1458/02 - Front Soda/Water  
Button Kit**

**82-5262 - VersaPour Soda/Water  
Push Button Kit**

For more information on the new Front Soda/Water Button kits, contact Lancer Customer Service at (800) 729-1500.

# Converting from Fluorescent to LED

Technical Bulletin Reference No. 2403-003

Here at Lancer we are currently underway, converting the IBD and ACIB models from fluorescent lighting to LED lighting components. The conversion to LED reduces the cost of parts, reduces the total number of parts, improves the process flow, reduces warranty and maintenance needs, as well as having less of an impact on the environment.

**ACIB Bevariety 30"**

**IBD Legacy 25"**

Beginning in January 2018, all of Lancer's 22", 25", and 30" Legacy IBD units as well as the ACIB 22" and 30" models will be outfitted with LED lighting components. For units already in the field, Lancer has created LED conversion kits so customers can convert their fluorescent light units to LED light. The following are the proper kits to order for each unit:

| Kit Part Number | Units                                    |
|-----------------|--|
| 82-5169         | Legacy IBD 22", 25", 30"<br>ACIB 22",30" |
| 82-5264         | Legacy IBD 44"                           |

For more information on the LED Conversion Kits, contact Lancer Customer Service at (800) 729-1500.
